

Science Lab Grading Rubric

	1	2	3	4
Procedure	I didn't explain the procedure at all.	I left out many steps in the procedure.	I explained the procedure but missed a step or two.	I clearly explained the procedure in its entirety.
Observations	I did not write any observations.	I wrote observations that are incorrect.	I included some observations from some procedures.	I stated observations from each necessary procedure.
Conclusions	I did not reach any conclusions.	The conclusions I reached do not match up with my observations and data.	I stated my conclusions and they match up with my observations and data.	I clearly stated my conclusions and how they matched up with my original hypothesis.
Use of Data	I didn't use data from the experiment at all.	I used data from the experiment inappropriately.	I used data to support some of my conclusions.	I used data to support all of my conclusions.
Editing	My lab report was not edited at all for grammar, spelling, and punctuation.	My lab report has errors in grammar, spelling, and punctuation that affect the reader's understanding.	My lab report has very few errors in grammar, spelling, and punctuation.	My lab report has been edited completely for grammar, spelling, and punctuation.
